RRRA		17.12.26	Finding the Hibernian shore: Strategy and diaspora in the Irish Sea province during the late and Roman Iron Age	Al McClusky

These are the Societies that we intend to cover this year. If anyone wishes me to include additional webinars please let Helen or myself know in good time for them to be included in the newsletter. We have not included in-person events, mainly because the list is already starting to become very lengthy. We have limited the list to webinars which are of local interest, or those we think members might be interested in. We have only included a minimal schedule of English events as there are too many to detail.

Please note notice of webinars sometimes comes too late to meet the newsletter deadline, so keep a watch on the sites you are interested in. We cannot pick everything up, and we have restricted our list to topics relating to archaeology, local history and themes which relate to the KHS.

Helen notes in-person events of potential interest to members on the KHS website, so please keep checking there. We are trying to avoid unnecessary duplication.

H	AANNAS	AYRSHIRE ARCHAEOLOGICAL AND NATURAL HISTORY SOCIETY
